

Trustees for the group need to be elected by members. This is done by a majority vote at the AGM. The minimum number of trustees is three, and the maximum ten. Under the constitution trustees are elected for a three year term. Mike Cain was elected at the 2021 AGM and has decided to stand for election again.

Mike Cain

Why You Should Vote For Me – Mike Cain

I brought my experience of having HSP and being involved with research to being a trustee of The HSP Support Group where I have represented the group at frequent meetings of Genetic Alliance and Neurological Alliance of which we are members which represent small charities with common interests which sometimes benefit the group.

At these meetings are often people of influence to treating people with HSP. So HSP is known to Ministers, The Chief Neurologist of England, and Civil Servants organising neurological conditions

Currently the NHS is undergoing a 'Transformation' - as Integrated Care Boards are introduced in treatment of Neurological conditions and pilots are being run in South East England and Merseyside and the effects of treating such as HSP will be reported this year. I hope to receive these reports and use them to the benefit of the group
